Portfolio

Experience

Founder's Office Intern

Feb 2026 – Present

Gentle Money

In-Office

- Partnered with the **Founder** on **product strategy, monetization, and growth**, shaping decisions across product, operations, and revenue.
- Ran **market research, competitor benchmarking, and pricing analysis**, translating findings into **MRDs and strategic recommendations** that guided product direction.
- Built **revenue forecasting models** and **monetization frameworks**, delivering **pitch decks, BI reports, and investment calculators** for key business decisions.

Data Analyst Intern

Jun 2025 – Aug 2025

Analytics Resources

Remote

- Integrated **Product APIs** to extract **10K+ records**, building **ETL pipelines** for data cleaning, transformation, and analysis to improve product insights.
- Performed **trend and performance analysis** on seasonal and category data to identify **profit optimization and pricing opportunities**, driving data-backed **product strategies**.
- Built **dashboards and recommendation systems** to enable **data-driven decisions**, enhance **user experience**, and optimize **engagement metrics**.

Growth and Strategy Intern

Sept 2024 – Nov 2024

Omelo

Remote

- Drove **market and competitor analysis** to define growth opportunities, onboarding **12 influencers** and **500+ active users** in 6 weeks while lifting retention by **40%**.
- Translated **user insights into product requirements** with **cross-functional teams** (Product, Marketing, CX) in **Agile**, driving **feature prioritization, sprint planning**, and a **30% rise in feature adoption**.

Education

National Institute of Advanced Manufacturing Technology (NIAMT)

Nov. 2022 – June 2026

Bachelor of Technology in Production and Industrial Engineering

Ranchi, Jharkhand

Skills

Analytics: SQL, Python, Excel, Tableau, Power BI, GA4, Mixpanel, Data Visualization, KPI Tracking

Databases & Libraries: MySQL, PostgreSQL, Pandas, NumPy, Matplotlib, Seaborn

Product Sense: Roadmapping, Wireframing, User Research, MVP, PRD, OKRs, Market & Retention Analysis, A/B Testing

Tools & Workflow: JIRA, Notion, Confluence, Figma, Agile/Scrum, Stakeholder Management, Git/GitHub

Projects

F1 World Championship Data Analysis | Python, Pandas, NumPy, Folium, Matplotlib, Seaborn

- Developed an end-to-end **ETL pipeline** integrating **25K+ F1 records** using Pandas and NumPy for data wrangling and **statistical analysis**, achieving **95%** data accuracy.
- Performed **EDA, outlier detection, time-series** and **correlation analysis** using **Matplotlib** and **Seaborn** to identify performance trends and reduce data anomalies by **20%**.

Employee Attrition Analysis | Python, Pandas, NumPy, Matplotlib

- Identified higher employee attrition in **early-tenure, lower-income**, and **overtime-intensive roles**, with **compensation, work-life balance**, and **career growth** emerging as key drivers.
- Delivered clear **data-driven insights** through visual analysis to support **targeted retention actions** and informed **workforce planning** decisions.

Advance DataWarehouse Analysis | SQL

- Built a scalable **data warehouse** using Medallion Architecture (Bronze–Silver–Gold) with automated **ETL pipelines** to transform and validate **ERP/CRM data** for reliable analytics.
- Designed **star schema dimensional models** and optimized **SQL queries** to support **BI reporting**, enabling insights into **customer segmentation, product profitability**, and **sales forecasting**.

Case Studies

- The Race of AI Trading** – Analyzed the **AI trading** ecosystem across **ML, NLP, and predictive analytics**, mapping **monetization models** and **competitive differentiation** for scalable, investor-focused platforms.
- Redesigning JioMart** – Diagnosed how category over-expansion diluted **market focus**; proposed a **grocery-first redesign** with **kirana enablement, AI recommendations**, and **loyalty-driven retention**.
